Dear Board of Canvassers,

George Washington once said "Laws made by common consent must not be trampled on by individuals."

As far back as the beginning of our democracy, men and women of honor....patriots, have upheld this tenet of America.

Please do what is right as you vote tomorrow, and honor the will of Michigan voters by certifying our votes. Your job, as canvassers, Michiganders, and honorable individuals is to do so, and we have faith that you will not "trample" on our rights, and on our democracy. The world, and our forefathers, are watching.

State Board of Canvassers,

In America, we the voters pick our leaders -- our leaders don't get to pick and choose who they listen to and who they silence. And in our democracy, "We The People" means voters of every color and creed, background and zip code, no exceptions.

Michiganders from the Upper Peninsula to Detroit turned out in substantial numbers and elected Joe Biden by an overwhelming margin of 154,000 votes.

I'm writing because you have a sworn duty to certify the election and uphold the will of the voters. Any attempt to derail certification would violate your sacred oath and our rights as voters.

The United States has always conducted a democratic transfer of power, passing the baton from one leader to the next regardless of party.

I hope you will live up to your sworn oath and uphold the will of Michigan voters by certifying their results today.

Dear State Board of Canvassers:

I am asking the State Board of Canvassers NOT CERTIFY THE ELECTION RESULTS UNTIL THERE IS A COMPREHENSIVE, INDEPENDENT LEGISLATIVE AUDIT WHICH ALSO VERIFIES ALL SIGNATUERS AND CHAIN OF CUSTODY.

There is no need to waste time and taxpayer money on a "process oriented" audit; The citizens of the State of Michigan deserve an election that is held to highest standard of integrity and transparency. There is no room for a "plus or minus" margin of error. The entire process MUST be without fault. Consider the following:

1. It appears that the software system Dominion was used in various counties throughout the State. There is no explanation that can justify a company, owned by enemies of the United States, to conduct the counting of our votes.
2. There is growing concern and evidence that the Dominion System is prone to sabotage by internal and or external forces.
3. If it was shown that a software glitch caused errors in at least one county, what is the assurance that other glitches did not occur in other counties?
4. Michigan appears to suffer from inconsistent ballot counter / ballot watcher protocol. It is unconstitutional to not allow representative from both Dem and Rep to be able to satisfactorily observe ballot counting. It is one thing to implement COVID protections, but it is entirely barbaric and Unconstitutional to prevent watchers from entering the room or obstructing visual observation by covering windows.
5. Michigan appears to suffer from inconsistent counting procedures, some which violate federal voting rules. Stopping the count at the pre-dawn hours, sending watchers home, then resuming the count after an undisclosed amount of ballots were delivered to the site, is paramount to stopping a marathon race mid way, then allowing unregistered runners to enter the race mid-point and be allowed to cross the finish line.
6. To believe that auditing the votes in Wayne County is somehow racist underscores the condescending nature of opponents of the audit. It is racist stereotypes that perpetuate the claim that African-Americans or Hispanics or Asian residences of Wayne County will vote only Democrat. There are minority groups that will vote Republican just as there are minority groups that will vote Democrat.
7. Certifying the votes, even if only a small amount of votes are questionable, is still fraudulent as well as a federal crime!! What does that say to the citizens of Michigan? Oh no worries, we believe in transparent voting, only 75% or 80% or 95% of the time? Do we tell our children they can lie as long as they tell the truth at least 70% or 80% or 90% of the time? Whether it is one vote or 50,000 votes, any instance of irregularity requires an audit.
8. If we look to James Ch 2 V:10 it says "For whomever shall keep the whole law, and yet stumble in one point, he is guilty of all".

We must remember that the integrity of the vote is the pillar of our freedoms. We cannot allow a margin of error as the sub-standard measure of excellence. We cannot risk subjecting the citizens of Michigan to accepting a fraudulent vote. They will never trust a government based on "we the people" ever again. Once we lose the integrity and purity of the ballot, we lose our entire freedoms. DO NOT CERTIFY THE ELECTION RESULTS UNTIL THERE IS A COMPREHENSIVE, INDEPENDENT, LEGISLATIVE AUDIT WHICH ALSO VERIFIES ALL SIGNATUERS AND CHAIN OF CUSTODY.

The Citizens of Michigan are owed this.

Dear Canvassers

I have a few questions for you all and unfortunately I was not able to place them on the comment form.

1. To each of the members of the Board of Canvassers, "What do you believe your job is, according to the law in the state of Michigan?" Are you committed to doing that job?
2. To Mr. Shinkle: Since you have quoted your wife's experience as the reason you are going to ask for a delay and an audit, how would you determine that was not a conflict of interest given that you are using one poll watcher's personal experience as a rationale to override the Wayne County certification?
3. To Mr Van Langevelde (sp?) Since you are employed by the chairman of the House of representatives in the state of Michigan, how is that not a conflict of interest? How would you be able to vote separately from your employer and are you committed to an independent voice?

Thank you

Respectfully

Dear Michigan Canvassers,

I am writing to object to the delay in the certification of Wayne County's vote in the November 3 elections. There is no conceivable justification for the delay. In fact, it is not a delay at all, it is an attempt to block the vote of Michigan's citizens. There is no credible evidence of substantial wrongdoing in Wayne County. There is no justifiable reason to single Wayne County out for extra scrutiny. There is only one explanation: Wayne County has the highest concentration of Black voters in the state. One canvasser even went beyond that: She proposed that all of the non-Detroit votes from Wayne County be certified, but that the vote from Detroit not be certified. We often hear about racist dogwhistles. This does not qualify as a dogwhistle. This is a racist foghorn, blasting at full volume.

This is an embarrassment to our state. We will be the laughingstock of the nation. Please stop the racist obstruction of the certification of the vote, stop trying to block the fair count of Michigan's vote, stop trying to overturn the will of the citizens of our state, and let us please move on with the smooth transfer of power to the duly elected incoming president. Enough of this nonsense. Just enough.

SUBJECT: STOP THE STEAL IN MICHIGAN - ***DO NOT CERTIFY THE VOTE***

Dear Michigan State Canvassing Board:

I am writing to ***urge you not to certify the election results of the 2020 Presidential Election*** until all investigations, forensic audits and exams are completed. In addition, we must see all legal cases that are before our State and Federal courts comprehensively processed on behalf of a fair election.

As you are aware, endless amounts of mail-in-ballots arrived at TCF between 3:00-4:30 am on November 5, 2020. These ballots were not observed by both parties, as required by Michigan law, but were brought in from the back door of TCF when "all counting was stopped" and most challengers were sent home. Michigan law states that all votes and absentee ballots must be completed by 8:00 pm on election day. This did not occur.

Federal and local legal teams have collected hundreds of signed and notarized affidavits of fraud, computer "errors" and proven transferral of votes from President Trump to Joe Biden. There are written affidavits confirmed by sworn oaths of poll workers, that challengers were kept 10-25 feet away from tables being "viewed". Also, outlined are eye witness accounts of voters being told to select Joe Biden on their ballot then being followed to the voting booth to ***"help" them cast their ballot for Joe Biden***, under the watchful eye of the election/poll worker. Senator Colbeck verifies that he was barred from re-entering the building to view military ballots, along with noting that approximately only 40 Republicans were allowed in to try and cover 134 tables. These statements need no further explanation. It is all illegal, unconstitutional and therefore uncertifiable!

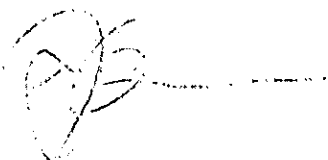

There are more damaging examples of willful corruption and negligence surfacing every hour. Most recently, the Republican Canvassers in Wayne County were publicly harassed, threatened and promised a comprehensive audit to change their vote on certifying the results, only to be made a mockery of by Secretary of State, Jocelyn Benson, stating almost immediately that there would be NO AUDIT of the vote. The outrage is measurable by we the people who believe in the law and constitution. A 71% tabulation discrepancy is NOT acceptable.

At this point, I do not have trust or faith in the results from these sham canvassing processes that have been completed in many counties of Michigan, but most egregiously in Wayne County, Michigan. This election has been stained by too many issues and suspicions to be legally certified, and I am counting on you to STAND UP STRONG for the law and the oath you took to uphold the Constitution of the United States of America.

Thank you for standing up for Michiganders.

Regards,

State Board of Canvassers,

In America, we the voters pick our leaders -- our leaders don't get to pick and choose who they listen to and who they silence. And in our democracy, "We The People" means voters of every color and creed, background and zip code, no exceptions.

Michiganders from the Upper Peninsula to Detroit turned out in substantial numbers and elected Joe Biden by an overwhelming margin of 154,000 votes.

I'm writing because you have a sworn duty to certify the election and uphold the will of the voters. Any attempt to derail certification would violate your sacred oath and our rights as voters.

The United States has always conducted a democratic transfer of power, passing the baton from one leader to the next regardless of party.

I hope you will live up to your sworn oath and uphold the will of Michigan voters by certifying their results today.

Hello, I submitted my comment via email (as the notice did provide this email address) because the online form did not work for me. Can you please make sure my comment is entered for today? Thank you,

Dear State Board of Canvassers:

I am writing to you with full confidence you will do the right thing today and certify our Election without delay and represent the lawful will of the people of Michigan.

In the Joint Oversight Committee meeting on Nov. 19, county clerks from both sides of the aisle all testified they have nothing to do with voter fraud. Necessary checks and balances have been performed by all 83 Michigan counties. All election results in Michigan have been unanimously certified at the county level.

You know there is not one shred of evidence of voter fraud.

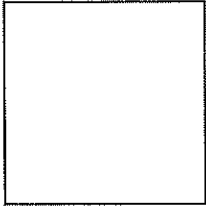

The fundamental right of our democracy - the right to vote and have one's vote counted - is at serious risk. The insidious doubt on Detroit, as this current President continues to do, is nothing less than voter suppression overtones dating back to the days of Jim Crow.

I thank you in advance for doing your jobs lawfully and with integrity. History will remember you for your actions.

Thank you,

Nancy Combs

We, the undersigned, are residents of Alger County and citizens of this state. As a whole, we Michiganders, all of us – black, white, brown, rich or poor, native & newcomer – collectively made a decision. If the outcome makes you uncomfortable, it's not a reason to disenfranchise us.

Sometimes folks on either side of the bridge want to act like we're worlds apart. But when it comes down to it, no matter who you are or where you come from, we all want the same things. Right now, we need to move past this election and allow a smooth transition of power in the midst of a global pandemic.

Many of us worked on Election Day alongside our Republican counterparts. We were relieved at how genuinely secure the public's votes are, given the layers of bipartisan scrutiny and the transparency. Alger County did not vote for Joe Biden, but we trust that the township clerks, the volunteer poll workers, and those who watched for candidates did everything they could to conduct a free and safe election. We have no cause to disbelieve the results, even though our candidate did not win. Neither should any other voter in this state.

Michiganders turned out in record numbers to vote; the voters decided, and our state is ready to move forward together. Playing games with the certification process does nothing but sow mistrust about our votes. You as elected and appointed officials should be focused on protecting public health during a global pandemic, not feeding lies about our state.

We hope you think very deeply about your legacy. To prolong this charade is not only an insult to our fellow Michiganders who staffed the election and to the voters who voted, but it creates an atmosphere of tension and anger that is truly dangerous. You are encouraging this tension. Please stop. Please respect the results of the 2020 general election and help us move forward so we can take on the serious issues we're facing and grow stronger together.

Sincerely,
